they are not worth one farthing more than when they were selling at 15 a 17. This remark applies more especially to Indiana. It will no doubt be years before regular dividends will be paid by these States, and yet they sell at half the price of Kentucky 5., a State that has always paid her interest promptly. In fact, the late great rise in the of things has been fostered and in a measure produced by the facility of obtaining loans on stocks, which has enabled persons with small means to control comparatively large amoun We are fearful that the impulse given to speculation by

the idle capital of the country for the last six months, through the medium of our banks, will recoil with severity upon our city. We see on all sides evidences of this truth cans to the amount of millions have been made in Wall street. Stocks have advanced to a point which a few months since would have been regarded as a thing impossible. Speculation equal to that of '36 is under full headway, 89 years. and we have not the foreign demand for stocks to sustain it which prevailed at that period, but on the contrary, by every steamer a foreign supply. There is every indication that John Bull, instead of taking our securities, is sending them here for sale, and whether there is unemployed capital amough in the country to carry the whole amount of American state ind-biedness remains to be seen. Hariem is another instance of an almost worthless stock carried by gambling operations far above its value. It sold to-day at 43, an advance of some 30 per cent, since Mr. Watt commenced his speculations in it. In all probability it will never pay his speculations in it. In all probability it will have pay a dividend, and its present price is only sustained by the comer which has been accomplished. Good dividend paying stocks are no higher than the present rate of interest will justify, but the ruling high rates of fancy stocks bodes ill to us, and that a revulsion must come upon the slightest appearance of stricture in the money market is proved by all our past painful experience. A notice of a new system of government currency will

be found in another column. It would be very desirable to have smaller notes, and we trust the next Congress will modify the act in this respect. We suppose these should be called " Government Notes" or " Currency" to distinguish Thompson's Bank Note Reporter says:-" There is but

little change to note, in uncurrent or broken Money. Ohio, Kentucky and Indiana are exchanged at 2 per cent. discount; the amount in the market, however, is very small. New York country Money finds its way to this city more readily than for a number of years: all of it is readily exchanged at ad per cent. discount. Exchanges with Boston, Phil del-phia and Bultimore are about par; consequently, the Bank Notes of those Cities are from one-fifth to a quarter per cent. discount;-the same may be said of all the New Banks which are taken by the Suffolk Bank. A large pur-tion of the Eastern Money which formerly came to this City from the North and West now centres at Albany, and is sent thence to Boston, over the Western Railroad. This accounts, in a measure, for the decrease of Boston Funds in

heavy holders are presenting their notes to the receivers of the various Banks, in order to have them on interest. Application will be made to the next Legislature to authorize the redemption of this Money by an issue of State Bondsthe Boads to mature at a time when the Safety Fund will be sufficiently replenished to pay them. This will not, in fact, sugment the debt of the State-there being no question of the certainty of the Safety Fund to meet them. The Farmers' Bank of Maryland has declared a half yearly

"The sales of foreign and Pittsburgh manufactured goods, have been large. There has been for the last 12 or 15 months, to little of credit business done, that the good effects of this safe and sure method of confining one's business to the measure of his means, is now felt by the absence of every thing like a pressure for money. There is no abundance of it on the streets —It is not, as it used to be, plenty in every man's hand-but there is more good money at command the perhaps has been for many years. Purchases of almost all kinds are made for c sh, or fer such paper as will command money at once

"This state of things must prevent any material rise in roduce and all other staples. The prices of these will be produce and all other staples. The prices of these will be regulated by the real demand—the demand of the consumer not the fictitions one of the speculator. "The State is fast absorbing its bills on credit, and as the

smount in circulation diminishes, so will the difference be tween its nominal and real value; and other scrips, such as thy and country, now affoat, will be as rapidly absorbed in taxes. These causes cannot produce any other result than an early freturn to one general specie standard for all our

Buffalo, Sept. 23, 1843.

Gentlemen, --In consequence of the non-arrival of vessels for the last two or three days, there is nothing on the market for sale. Everything is at a perfect stand and as dull as a country village. The last cargo of Corn was in on Thursday and sold for 35½c, Ohio. The forwarders are taking Black Rock Flour at \$3.85 a 2.87½; they solely keep up the price. There is no doubt a large fleet of vessels on the lake, which may come in when the wind changes, it having been blowing up the lake since. Thursday night. blowing up the lake since Thursday night.

Phalon's Tuberose Shaving Cream .- We Finalon's Tuberose Shaving Cream.—We little thought the attention of the public could be engaged upon a new article for shaving, no matter how deserving, after the numerous impositions it has suffered. But we are mistaken, the "Tuberose Shaving Cream" has been tried and tested and eronounced upon by the public as the best article for softening the beard yet invented. To assist the decention Barry's advertisements have been copied verbalim, the fellow being toe ignorant to write one. The labels and directions on the bottles are the same as the originals that the composition is as worthless as he who makes it, and has in every instance entirely destroyed the hair of those who use it. The counterfeit is sold at one dollar, while the original and genuine is sold for a cents. Barry's Tricopherous is a cured by letters patent of U. S. and no one dare use any of the jugredients of which it is composed. Its use is to prevent baldness and gray hair, and to rem ave and cure scurf and dandriff. SECOND EDITION. MABEL, THE ACTRESS: OR, THE DANGERS OF UNLAWFUL LOVE.
This deeply interesting Romance has already reach Second Edition.

It is a trie of passion and of guilt; but such is the power with which it is told—the truth and earnestness of the style—the fidelity to nature and to life of all its incidents—and its perfect free-lom from every expression that might offend the most virtuous taste, that none who read it could be disposed to exclude it from the most refined family circle. Well would it be for our your he for he had been considered.

it be for our you h, of b th sexes, if the learn should sink into their hearts; for its aim is to show that,

"The only amazinthine flower on earth
"Is Virtue—the only last ing treasure, Truth."

FRANCIS'S HIGHLY IMPROVED MANIFOLD WRITER.—This article has now been before
the public but a short time, and has gained a requiation be-

yond parallel with any thing ever known, and the many thousand copies daily in use is a proof of the high favor they have obtained. It has entirely taken the precedence of the Copying Press; and many of our merchants, after paying from \$2°, to \$56 for a Press have laid them aside and given the Manifold Writer the preference, finding them to be neater and more expeditions. The Copying Books are done up in a veriety of sizes, the paper being ruled or plain, varying in price from \$1 to \$5. Business men and merchants who study economy, will please call and examine the article, and we will guarantee that it will recommend itself more than a column of advertising. Strangers visiting the city are cautioned against buying from itinerant venderson board steamboats and at hotels, selling worthless article for a few shillings, at the expense of this truly invaluable article.
